

# Health and Safety

## Fire Safety Equipment

▶▶ You will have been provided with fire safety equipment suitable for the type of property you live in. This will always include a smoke detector at least. Any equipment provided will be serviced annually.

▶▶ Fire safety is important so please don't prop open fire doors or tamper with fire extinguishers, fire blankets, smoke alarms and smoke detectors. They all could save your life.

▶▶ Never leave the fire on when you go out.

## Smoking

▶▶ Be careful when and where you smoke – please don't smoke in bed or when you're very tired. Switch all electrical sockets off when not in use and ensure gas and electric cookers are switched off after use.

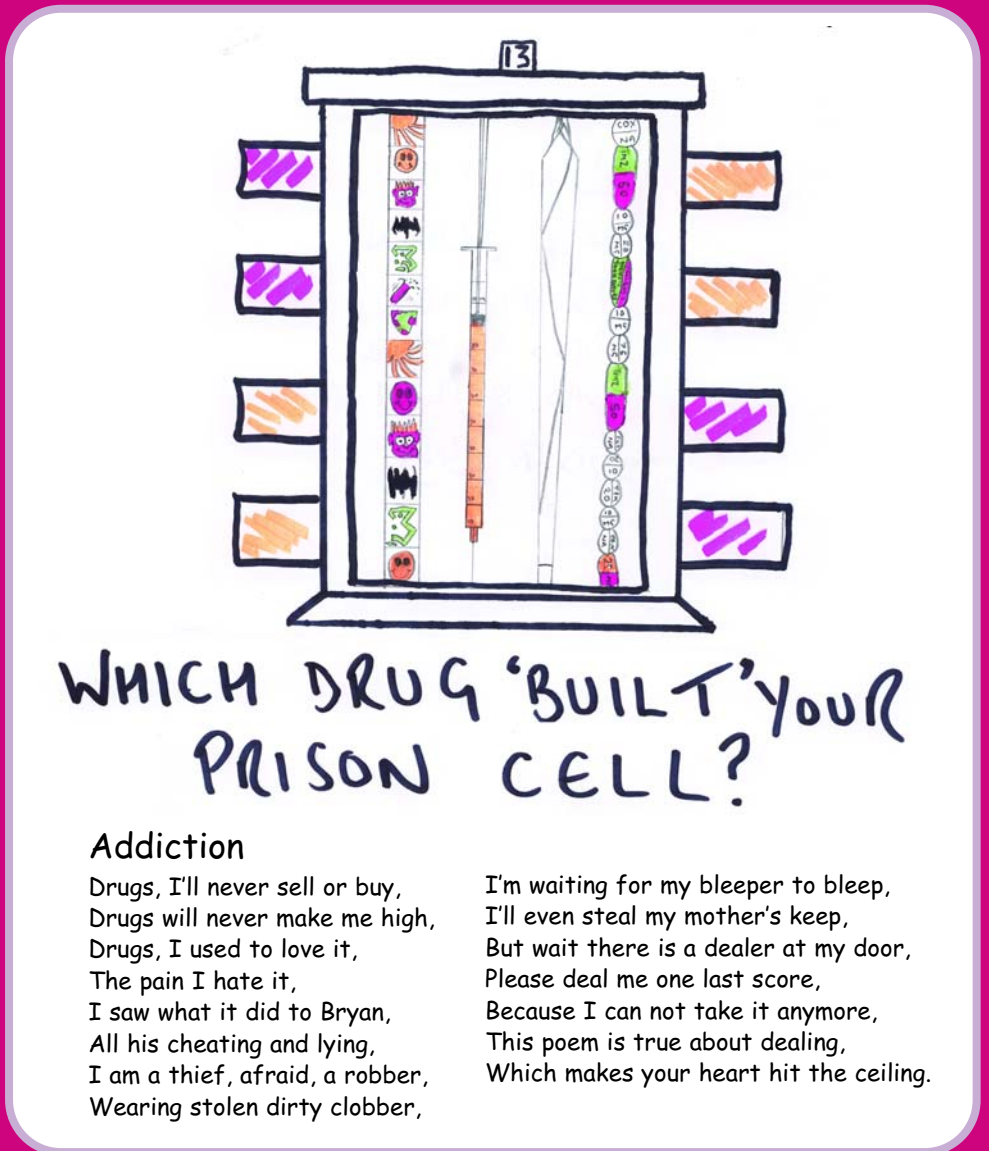

## Hazards

▶▶ Any furnishings provided by Foundation Housing will comply with current Health and Safety regulations.

▶▶ Foundation Housing staff will point out anything they see as being potentially hazardous in your property when they visit. Please note this is for your safety.

## Potentially infectious Diseases

▶▶ In shared properties or when you have visitors, please take extra care over potentially infectious diseases.

WHICH DRUG 'BUILT' YOUR  
PRISON CELL?

### Addiction

Drugs, I'll never sell or buy,  
Drugs will never make me high,  
Drugs, I used to love it,  
The pain I hate it,  
I saw what it did to Bryan,  
All his cheating and lying,  
I am a thief, afraid, a robber,  
Wearing stolen dirty clobber,

I'm waiting for my bleep to bleep,  
I'll even steal my mother's keep,  
But wait there is a dealer at my door,  
Please deal me one last score,  
Because I can not take it anymore,  
This poem is true about dealing,  
Which makes your heart hit the ceiling.

▶▶ Many diseases such as Hepatitis can be spread via blood or vomit and skin diseases such as scabies can be spread by sharing towels.

### Risks

▶▶ Please talk to your worker about any particular risks which may be relevant to your property and the best way to avoid Health and Safety risks.

### Concerns

▶▶ If you have any Health and Safety, or security concerns please report them

immediately to Foundation Housing staff and we will take action.

▶▶ We have produced a Tenants Guide to Drugs and Foundation Housing ask your worker about it.

If in doubt  
**...ask!**

If you're not satisfied  
**...tell us!**

If you're mistreated  
**...complain!**
